

RESTAURANTS FOR HEALTHIER FISH

Commissioner Lester Crawford
Food and Drug Administration

I want to serve my customers the best tasting, highest quality food I can. Fish is an integral part of our menu, so it is in my best interest to serve fish that is both delicious and healthy.

I believe it is both of our responsibilities to provide a good food product to customers. Thus, I would like to voice my support for heightened standards administered on fish by your organization.

Many people have become aware of the high levels of PCBs (Polychlorinated Biphenyls) that exist in some fish. In order to allay any doubts consumers might have over the quality of the fish we sell, I am appealing to the FDA to improve their health standards for PCBs in fish. I support an allocation of FDA funds to achieve this goal.

Thank you for your efforts to ensure the safety of our fish at a time where health is at a true premium.
